

EmbedGMap.html

**Get the iFrame from Share Feature of Google Maps, if not visible normally check Incognito**

```
<div style="display: inline-block;" ></div>
  <h3> CN Tower </h3>
  <iframe </iframe>
</div>
<div style="display: inline-block; padding-left: 50px;" >
  <h3> Union Station </h3>
  <iframe </iframe>
</div>
```

GeoLocation.html

```
<script>
  navigator.geolocation.getCurrentPosition( function(position) {
    document.write( '<h3> Longitude : ', position.coords.longitude, '</h3>' )
    document.write( '<h3> Latitude : ', position.coords.latitude, '</h3>' )
  });
</script>
```

ListEg.html – Add BG & FG Colors

<h4> Unordered List ul - Items which don't necessarily need an order Eg. Grocery List </h4>

```
<ul>
  <li> Milk </li>
  <li> Eggs </li>
  <li> Chicken </li>
</ul>
```

<h4> Ordered List ol - Items which need an order Eg. Football Team Ranking </h4>

```
<ol>
  <li> Manchester City </li>
  <li> FC Bayern München </li>
  <li> Paris Saint-Germain </li>
</ol>
```

TableEg.html - Add BG & FG Colors

<table style="border: 5px dashed darkslategray; padding: 10px;">

<tr>	<th> 1 </th>	<th> 2 </th>	<th> 3 </th>	</tr>
<tr>	<th> 4 </th>	<th> 5 </th>	<th> 6 </th>	</tr>
<tr>	<th> 7 </th>	<th> 8 </th>	<th> 9 </th>	</tr>
<tr>	<th> * </th>	<th> 0 </th>	<th> # </th>	</tr>

</table>
